

EVO-CONCRETECLEAN

ECOLOGICAL CONCRETE CLEANER AND DEGREASER

DESCRIPTION:

EVO-CONCRETECLEAN – an industrial strength concentrated fluid applied degreaser and cleaner specially formulated for industrial, commercial and residential use.

Its special non-corrosive, non-flammable, non-carcinogenic, biodegradable and non-hazardous formulation with no solvents or other aggressive chemicals, allows effective cleaning without harmful effects for the environment and with no changes to the colour, appearance and texture of the substrate.

APPLICATION FIELDS:

- General removal of pollution stains and dirt from solid and fluid fuels, road traffic, industrial environment, etc., on concrete, brick, tiles or stone constructive elements at both urban and industrial areas.
- Cleaning of sidewalks, drive ways new or old constructions affected by pollution.
- Ramps, oil stained concrete, barges, car parks, gas stations, shopping centres.

ADVANTAGES:

- It does not attack the surface treated.
- Dissolves coal deposits from combustion processes, removing them.
- Safe for users and adjacent areas, requires only safety goggle, gloves and rubber boots NO special protection equipment.
- Non-corrosive and non-flammable. Environmental friendly. Saves costs of hazardous classified materials for transportation.
- Replaces aggressive acid and basic cleaners.

SURFACE PREPARATION:

Sweep off all loose material or remove excessive build-up of grease, carbon dust, salts, or unsound particles from the surface to be treated to optimize the consumption of ***EVO-CONCRETECLEAN***.

APPLICATION:

EVO-CONCRETECLEAN by spray or roll ensuring a uniform and homogeneous coverage.

Allow ***EVO-CONCRETECLEAN*** to work on the surface for about 4-8 minutes, to deep clean the pores agitate severe spots using scrubber or Roto-clean. Power Wash the surface thoroughly with plenty of water using 2500-3000 psi.

**After the cleaning process allow to dry
The use of EVO- TRAFFICSEAL is recommended to prevent future staining.**

CLEANING:

Tools and equipments should be cleaned immediately with warm, soapy water after use.

PACKAGING:

EVO-CONCRETECLEAN is supplied in 5lit, 20lit and 200lit containers.

STORAGE:

12 month in its original unopened containers, in a dry and covered place protected from frost, with temperatures ranging from 5 °C. To 38 °C

SAFETY AND HEALTH:

EVO-CONCRETECLEAN is a non-flammable and non-corrosive product but eye and skin contact must be avoided. Use gloves and

safety goggles, rubber boots In case of eye contact, thoroughly clean with clean water but do not rub. In case of skin contact, wash affected areas with water and soap. If irritation persists, seek medical attention.

TECHNICAL DATA:

WARRANTY: 10 year manufacturer

Characteristics of the product – Non-Toxic - Non-Flammable - Non-Caustic	
Appearance	Light yellow Liquid
Evaporation	Less in 1.0 @ 24 °C
Specific Gravity	(H2o 1)1.0-1.2 @ 24 °C
pH	<1
Minimum application temperature (°C)	> 7
Solubility/Evaporation Rate	DILUTABLE-(BAC=1) same as water
Flash point/Boiling Point/Freezing Point	Non-flammable-Same as Water
Estimated consumption per treatment*	1 lit 5-7/m ²

* Depending on absorption, texture and substrate conditions as well as application method.
