

# **EVO-POWERCLEAN<sup>®</sup>**

## **ECOLOGICAL DEGREASER AND DISINFECTANT CLEANER FOR MASONRY SURFACE PREPARATION**

### **DESCRIPTION:**

***EVO-POWERCLEAN*** - an industrial strength concentrated degreaser and general purpose cleaner specially formulated for commercial and residential use.

Its special non-corrosive, non-flammable, non-carcinogenic, biodegradable and non-hazardous formulation with no solvents or other aggressive chemicals, allows effective cleaning without harmful effects for the environment and with no changes to the colour, appearance and texture of the substrate.

Leaves no residue-surface is ready for painting.

### **APPLICATION FIELDS:**

- Cleaning of bathrooms, kitchens, countertops, floors etc.
- General removal of pollution stains and dirt from solid and fluid fuels, road traffic, industrial environment, etc., on brick, tiles or stone, urban furniture, ornamental structures and constructive elements at both urban and industrial areas.
- Ramps, engine rooms, parts, oil stained concrete, barges, fireplace carbon, grease traps.

### **ADVANTAGES:**

- It does not attack the surface treated.
- Dissolves coal deposits from combustion processes, removing them.
- Safe for users and adjacent areas, it does not require special protection equipments.
- Non-corrosive and non-flammable. Environmental friendly. Saves costs of hazardous classified materials for transportation.
- Replaces aggressive acid and basic cleaners.

### **SURFACE PREPARATION:**

Sweep off all loose material or remove excessive build-up of grease, carbon dust, salts, or unsound particles from the surface to be treated to optimize the consumption of ***EVO-POWERCLEAN***.

### **APPLICATION:**

***EVO-POWERCLEAN*** by brush, broom or spray ensuring a uniform and homogeneous coverage.

#### **DILUTE CONCENTRATE: 10:1 or 15:1**

Allow ***EVO-POWERCLEAN*** to work on the surface for about 1-3 minutes, agitate severe spots. Wash the surface thoroughly with plenty of water.

### **HEAVY CLEANING:**

Use full strength 1:1

### **EXTRA DUTY CLEANING:**

Allow ***EVO-POWERCLEAN*** to work on the surface for about 3-5 minutes, agitate severe spots. Wash the surface thoroughly with plenty of water.

### **STEAM CLEANING OR PRESSURE WASH:**

A pre-mixed solution can be drawn from auxiliary tube or put directly into mixing tank giving up 1: 200 dilutions at the nozzle. In case of a high level of pollutant on the surface, if necessary, repeat the treatment to achieve a better result

### **CLEANING:**

Tools and equipments should be cleaned immediately with water after use.

**PACKAGING :**

**EVO-POWERCLEAN** is supplied in 2lit, 5lit, 20lit and 200lit containers.

**STORAGE:**

Five Years in its original unopened containers, in a dry and covered place protected from frost, with temperatures ranging from 5 °C. To 38 °C

**TECHNICAL DATA:****SAFETY AND HEALTH:**

**EVO-POWERCLEAN** is a non-flammable and non-corrosive product but eye and skin contact must be avoided. Use gloves and safety goggles. In case of eye contact, thoroughly clean with clean water but do not rub. In case of skin contact, wash affected areas with water and soap. If irritation persists, seek medical attention.

**WARRANTY:** 10 year manufacturer

Characteristics of the product –Non-Toxic-Non-Flammable-Non-Caustic	
Appearance	Pink Liquid
Evaporation	Less in 1.0@ 24 °C
Specific Gravity	1.083
pH	12.8
Minimum application temperature (°C)	> 7
Solubility/Evaporation Rate	DILUTABLE-(BAC=1) same as water
Flash point/Boiling Point/Freezing Point	Non-flammable-Same as Water
Estimated consumption per treatment*	1 lit 5-7/m <sup>2</sup>

\* Depending on absorption, texture and substrate conditions as well as application method.
