

EVO-SALTAWAY[®]

ECOLOGICAL EFFLORESCENCE REMOVER

DESCRIPTION:

EVO-SALTAWAY an industrial strength efflorescence (SALT) remover specially formulated for industrial, commercial and residential use on concrete or masonry surfaces.

Non-flammable, non-carcinogenic, biodegradable and non-hazardous formulation with no solvents or other aggressive chemicals, allows effective removal of efflorescence without harmful effects for the environment.

APPLICATION FIELDS:

- General removal of efflorescence on tiles bricks and concrete.
- Cleaning of historical monuments, public buildings and new or old constructions affected by efflorescence.
- Masonry, brick and block structures, walls, floors suffering efflorescence.

ADVANTAGES:

- Dissolves efflorescence deposits, allowing easy removal.
- Safe for users and adjacent areas, it does not require special protection equipment.
- Non-flammable. Environmental friendly. Saves costs of hazardous classified materials for transportation.
- Replaces **aggressive** acid cleaners.

SURFACE PREPARATION:

Preparation of the surface

Remove all loose material and remove any excessive build-up of efflorescence mechanically before application.

APPLICATION:

Test surface with product before use for colour fastness and compatibility.

Apply EVO-SALTAWAY by pump spray ensuring a uniform and homogeneous coverage.

Apply until foaming appears.

Foam only appears when efflorescence is present. Stubborn deposits may require mechanical agitation to remove.

Wait 5 minutes, re-apply the rinse as required, mechanically agitate and high pressure clean to remove efflorescence.

Remove by rinsing area thoroughly with clean water and allow to dry as much as possible as mildly caustic.

Apply EVO-SEAL to prevent further future efflorescence as per TDB

Protect all other surfaces other than area to be treated. If any other areas are subjected to the product, rinse immediately.

CLEANING:

Tools and equipment should be cleaned with water directly after use.

PACKAGING :

EVO-SALTAWAY is supplied in 5lit, 20lit and 200lit containers.

STORAGE:

12 month in its original unopened containers, in a dry and covered place protected from frost, with temperatures ranging from 5 °C. To 38 °C

SAFETY AND HEALTH:

EVO-SALTAWAY is a non-flammable product, eye and skin contact must be avoided. Use gloves and safety goggles. In case of eye contact, thoroughly clean with clean water but do not rub. In case of skin contact, wash affected areas with water and soap. If irritation persists, seek medical attention.

TECHNICAL DATA:

WARRANTY: 10 year Manufacturer

Characteristics of the product –Non-Toxic-Non-Flammable	
Appearance	Yellow Liquid
Evaporation	Less in 1.0@ 24 °C
Specific Gravity	(H2o 1)1.0-1.2 @ 24 °C
pH --%solids	1.0 -----2%+/- 0.02%
Minimum application temperature (°C)	> 7
Solubility/Evaporation Rate	DILUTABLE-(BAC=1) same as water
Flash point/Boiling Point/Freezing Point	Non-flammable-Same as Water
Estimated consumption per treatment*	1 lit 5-7/m ²

* Depending on absorption, texture and substrate conditions as well as application method.
Amended 19/09/2017
